

Parking instructions - Clarion Hotel® Aviapolis

Arriving by car:

The parking areas managed by Finavia are located in the hotel's courtyard (entrance: Karhumäentie 5) and in the parking garage "Kolmioparkki" on the other side of the street (entrance: Turbiinitie 13). The parking lot in the hotel's courtyard is a smaller outdoor area that fills up quickly. We primarily recommend driving your car to the Kolmioparkki parking garage.

Google Maps link:

We offer our conference guests free parking at Finavia's parking areas in the hotel's courtyard, as well as in the Kolmioparkki parking garage. To receive the benefit, after parking inform the meeting staff of the registration number during the day of the event. Please note that if you are using the Moovy app, automatic camera recognition must be turned off in Kolmioparkki for the duration of parking. Otherwise, the payment goes automatically through the app. When parking in outdoor areas, please visit the hotel reception before departure and your ticket will be validated there. Please note that the benefit only applies to parking. You can pay the charging fee for an electric car directly in the parking garage.
